Harlan J. Berk, Ltd. has presented an innovation in antiquities and numismatics for some time now. The system is simple. When you want an antiquity or coin in the sale, just bid the estimated price by phone or mail. We will send you the antiquity or coin immediately. No waiting for the closing of the sale. Any and all antiquities or coins not sold before the closing will be sent to the highest bidder on May 27, 1998.

EXAMPLE—You bid estimate on an item valued at \$100.00 and if your bid is the 1st to reach us, you will receive the item immediately. If on the other hand, you bid \$75.00 on the same item and are still the high bidder at the end of the sale, the item will be mailed to you on the closing date, May 27, 1998.

If you are ever in the area, stop in to see us! Of course, it's best to call first. **Harlan J. Berk, Ltd. reserves the right to refuse any ridiculous bids.**

GOLD

- IONIA**; 700 BC or before, EL Stater, 10.73g. Only an indication of a patterned incuse on the reverse. Utterly typeless on the obverse. This piece of gold comes just before the beginning of coinage. It is a round regular, typeless nugget adjusted to exactly the correct weight of a Croesus gold stater, for instance. Because it is virtually without type, this could be regarded as a pre-coinage nugget, or is it the first coin? 9000
- IONIA**; 625 BC, 1/2 Stater, 7.22g. This typeless 1/2 stater with the striated obverse and complex configuration of the incuse is a single-step advance from lot #1. It has a striated obverse and a planned, 3-part incuse. The 1/2 stater in our 99th sale was the discovery piece. This is a second example from an old collection which appeared last fall in a Bank Leu sale where we purchased it. Second recorded. EF 8750
- LYDIA, CROESUS**; 561-546 BC, Stater, 8.05g. Mint State 5000
- SAMIAN-EUBOIAN STANDARD**; 6th c. BC, EL 1/6 Stater, 2.89g. Weidauer, Elektronprägung, 199-201, pl. 23 (all 3 specimens in Paris, Oxford, and Boston from same dies as ours). OBV: Facing lion's head. RX: Quadratic incuse. This is one of the best examples recorded of this very rare and unusual issue. EF 6000
- SYRACUSE, AGATHOCLES**; 317-289 BC, Gold Drachm, 4.38g. BM-338, M&M Sale, June 1964, 79 (same dies). OBV: Head of Apollo left; behind, wheat ear. RX: Biga right; below, large triskeles (three joined legs, representing the three-sided island of Sicily). Excellent surfaces. Sharp Mint State 4850
- MACEDONIA, PHILIP II**; 359-336 BC, Stater, Amphipolis III n, c. 323/2-315 BC, 8.55g. LeRider-238-242. Exquisite head of Apollo struck in high relief. This is so well-struck that there is even detail on the laurel leaves. FDC 3850
- MACEDONIA, PHILIP II**; 359-336 BC, Stater, 8.53g. New, unrecorded symbol = M, combined with H or II. This is a very well-studied series, new coins hardly ever turn up. Die break on cheek of Apollo. Mint State 5000
- MACEDONIA, PHILIP II**; 359-336 BC, 1/8 Stater, Pella Mint, c. 340-328 BC, 1.06g. LeRider-114a (same dies). Normally the small gold coins of Macedonia have many dings and damage spots. That is not the case with this very nice, exceptionally clean 1/8 Stater of Philip. Near Mint State 2350
- MACEDONIA, ALEXANDER III**; 336-323 BC, Stater, Magnesia ad Maeandrum, 319-305 BC, 8.52g. Unpublished, symbol same as the silver drachm, Price-1954, but not recorded for gold stater. RX: Symbols = seal left, thyrsus far right. Extremely pretty head of Athena. Mint State/EF 6000
- MACEDONIA, ALEXANDER III**; 336-323 BC, Stater, Sidon Mint, c. 333-305 BC, 8.58g. Price-3461. Miniscule obverse edge ding at eight o'clock. Near Mint State 2300
- MACEDONIA, ANTIGONUS GONATUS, Type of Alexander III the Great**; 277-239 BC, Stater, Amphipolis Mint, c. 277-270 BC, 8.55g. Price-610, Müller-918 var, MN 26 (1981) pp. 102-110, pl. 18, #11. Issued to pay mercenaries at a rate of 1 stater = 1 mercenary. Mint State 3000
- LYSIMACHOS**; 306-283 BC, Posthumous Stater, Byzantium, c. 150 BC, 8.29g. Same obv. die as G. Hirsch, 157, 1988, 60 (rev. ΔP in inner field). RX: BY on throne, decorated trident in exergue, AP in inner left field. Rather realistic portrait of the deified Alexander with the heavy forehead, prominent nose, and strong chin that typified portraits of Alexander. Nice VF/Fine+1750

12. **EGYPT, PTOLEMY III**; 246-221 BC, Tetradrachm, 14.02g. OBV: Ptolemy II and Arsinoe. RX: Ptolemy I and Berenike. Struck by their son and grandson, the reverse commemorates the soldier-comrade of Alexander and founder of the Ptolemaic kingdom, Ptolemy I and his wife Berenike. The obverse shows his aristocratic son Ptolemy III and his wife Arsinoe. Choice EF 5000
- 12A. **JULIUS CAESAR**; Died 44 BC, Aureus struck by A. Hirtius, Rome, 46 BC, 7.90g. Cr-456/1, Syd-1017. OBV: Veiled female head right. RX: Lituus, jug, and axe. This is an early issue of A. Hirtius for Caesar as the face of Pietas is relatively nicely formed and struck in a decent relief. Near Mint State for issue. 2350
13. **TIBERIUS**; 14-37 AD, Aureus, Lugdunum, 7.81g. BM-46, RIC-29. Extremely well proportioned, crisp portrait of Tiberius. Mint State 5250
14. **ANTONIA, Mother of Claudius**; Aureus, 7.80g. BM-112, C-4 (150Fr), same dies as von Kaenel 350-353 (pl. 5). OBV: ANTONIA AVGVSTA, Bust draped right with wreath of wheat ears. RX: SACERDOS DIVI AVGVSTI. Two lighted torches bound by ribbon. By an engraver's error, two bands of ribbon join the torches on this reverse die, the upper band apparently a first attempt that was corrected since it is less distinct and in lower relief. Very wonderful portrait of this rare mother of Claudius. Mint State **SOLD**
15. **NERO**; 54-68 AD, Aureus, Rome, 66-67 AD, 7.11g. BM-77, C-120 (40Fr). OBV: IMP NERO CAESAR AVGVSTVS, Head laureate right. RX: IVVPITER CVSTOS, Jupiter seated left holding thunderbolt and scepter. Fine 1400

230. 393-262 BC, Eastern Syrian Imitation Tetradrachm. OBV: Athena. RX: Owl.

- The wild-eyed Athena portrayed on the obverse of this coin could only come from Syria. The owl on the reverse comically looks at the test cut that just missed him. EF 300
231. 175/4 BC, New Style Tetradrachm, 16.80g. Thompson-188c, ANS (Attic head). OBV: Helmeted head of Athena right. RX: Owl on amphora, ME below, Apollo in left field. VF/EF 450

235. **AEGINA**; c. 550-500 BC, Stater, Class 2, 12.07g. Holloway, Museum Notes, 17, 1971, pl. II, 26. OBV: Sea turtle (thin collar). RX: Incuse. Very early sea turtle. Strange incuse on reverse is probably the result of a die break. About EF 1500

237. **AEGINA**; 445-431 BC, Stater. Two-headed turtle is a result of a doublestrike. Though it is convenient as normally the turtle's head is off-flan. In this case, both heads are on-flan. High relief. Fine+ 475

243. **ELIS, OLYMPIA**; 343-323 BC, Stater. Obverse die=Seltman "CS," Reverse die close to Seltman "ET." Unpublished reverse die. Only 3 coins are recorded for this obverse die paired with 2 reverse dies. While this reverse die is similar to ET, it is actually far more powerful than the ET die. The study of the Temple coins of Olympus by Charles Seltman, though it was published in 1921, is exhaustively complete. Finding new dies not included in this work is an infrequent occurrence. While the head has a great deal of dignity and sharpness, the eagle is unusually powerful and has great detail as does the snake which possesses an eye and a flitting tongue. Exquisite coins of Elis, Olympus are rare and almost never come into the market in this condition. As the title of Seltman's book suggests, these coins were used at the temple of Olympus at the time of the Olympic games. Near Mint State. Unique 14500
244. **PHAISTOS**; 330 BC, Stater, 12.14g. Svoronos-24, pl. 23, 18, LeRider-14a, pl. 21, 11 (this coin). Overstrike on Knossos, Sv-4,25. Ex Leu 61 #201, Ex Fund von Phaistos 1953, pl. XXI, 11 #13. OBV: Heracles with bow and club facing; at his feet, barleycorn; to left, lion-skin; in field, pellets. RX: Bull's head facing in round incuse. This rather excellent coin looks like a piece of modern art with Heracles standing up against a strange, geometric wall. But actually, it is the reverse of the Labyrinth of Knossos showing through from the undertype. The obverse of the undertype which barely shows is one of the most famous coins of Crete, it being the running Minotaur that lived within the labyrinth. Good VF 4500

Evidently someone needed a bit of silver in ancient times, and this very rare coin was cut with a pair of shears, but they were nice enough to leave the entire portrait and almost all of the name. If you purchase this coin, you would very nearly have a coin of Pacatian. This coin proves that in ancient times Roman coins, rare or common, were regarded as hard money and a source of metal to be reused. 1800

526. **AURELIAN**; 270-275 AD, Denarius, 2.72g. RX: DACIA FELIX, Dacia standing left holding standard. cf. Göbl-17, Aureus and Antoninianus of Milan Mint, same rev. legend but S in exergue and Dacia holds staff topped by ass's head not standard as here. C-74 quotes a quinarius of the same type from Tanini, which could be a misdescription of our coin. Otherwise unpublished and apparently unique. According to Marcus Weder, our Swiss friend who knows Aurelian's coinage backwards and forwards, our denarius was probably struck at the mint of Siscia c. 274 AD in commemoration of Aurelian's withdrawal from Trajan's old province of Dacia across the Danube and his establishment of a new, easily defensible province of the same name on the south bank of the river. Hence the personification of Dacia here holds a military standard rather than a staff as on the corresponding coins struck at Milan early in the reign. Apart from his reformed denarii struck at Rome mostly with the reverse VICTORIA AVG, the denarius was an extremely rare denomination during Aurelian's reign, obviously of commemorative, ceremonial, or experimental character. A highly important coin both historically and numismatically. EF 5000

The coin is a mule combining the obverse of RPC-621 with the reverse of RPC-620. Our identical coin is published by Banti-Simonetti, vol. The triumphal asses of Augustus are among the most relevant coins of the Roman series. They are the only Roman bronze to show a deity standing behind the emperor on the obverse, and this is the only Rome mint sestertius-sized portrait of Augustus ever struck in Rome apart from the restored coins of Nerva. THANK YOU CHICAGO POST OFFICE!

All of our European catalogues were paid for by us at the First Class air mail rate. Some brilliant individual in the deepest depths of the Chicago Post Office sent all of our European catalogues by sea. Of course, without telling us. Therefore, the catalogues took six weeks to arrive Instead of three days. We are sorry for the Inconvenience and we are looking at other ways to send catalogues overseas.

My dear Jones:

I wonder if you would be free to
come down to a sort of impromptu class dinner
at the White House on Tuesday next, the
thirtieth at seven o'clock. It would give
me a great deal of pleasure if you could.
Please let me know at your earliest conven-
ience. I want to see as many of the fellows
together again as possible.

Cordially and faithfully yours,

Wm. Howard T. Jones,

My dear Mr. Stewart:

I am writing to make a grateful
acknowledgment to you, and through you, to the
Sulgrave Delegation, for the very cheering and
pleasing message which you addressed to me from
Pittsburgh on September 13th. I know that Mrs.
Harding will be greatly pleased at the interest
expressed by the delegation concerning her illness.
Friends have been so kind and helpful in this period
of anxiety. My own gratitude is very genuine.

Very truly yours,

Wm. Howard
